

Subject Index*Acceleration*

Arm-Hand Use in Healthy Older Adults, 64(6), 877-885

Accidents, Traffic

Traffic Violations Versus Driving Errors of Older Adults: Informing Clinical Practice, 64(2), 233-241

Activities of Daily Living

Beyond Flow: Temporality and Participation in Everyday Activities, 64(1), 152-163

Children's and Parents' Perspectives About Activity Performance and Participation After Spinal Cord Injury: Initial Development of a Patient-Reported Outcome Measure, 64(4), 605-613

Comparison of Constraint-Induced Movement Therapy and Bilateral Treatment of Equal Intensity in People With Chronic Upper-Extremity Dysfunction After Cerebrovascular Accident, 64(4), 528-539

Development and Standardization of a "Do-Eat" Activity of Daily Living Performance Test for Children, 64(1), 47-58

Effects of a Tailored Activity Pacing Intervention on Pain and Fatigue for Adults With Osteoarthritis, 64(6), 869-876

Environmental Effects in the Performance of Daily Tasks in Healthy Adults, 64(6), 935-940

Examining Content Validity and Reliability of the Assessment of Children's Hand Skills (ACHS): A Preliminary Study, 64(5), 756-767

Exploring the Effectiveness of Occupational Therapy Interventions, Other Than the Sensory Integration Approach, With Children and Adolescents Experiencing Difficulty Processing and Integrating Sensory Information, 64(3), 415-429

Five-Year Retrospective Study of Inpatient Occupational Therapy Outcomes for Patients With Multiple Sclerosis, 64(5), 689-694

In-Home Occupational Performance Evaluation (I-HOPE), 64(4), 580-589

Manual Ability Classification System for Children With Cerebral Palsy in a School

Setting and Its Relationship to Home Self-Care Activities, 64(4), 614-620

Performance Challenges for Children and Adolescents With Difficulty Processing and Integrating Sensory Information: A Systematic Review, 64(3), 430-442

Pilot Study to Examine the Use of Self-Generation to Improve Learning and Memory in People With Traumatic Brain Injury, 64(4), 540-546

Rehabilitation for Bilateral Amputation of Fingers, 64(6), 923-928

Systematic Review of the Research Evidence Examining the Effectiveness of Interventions Using a Sensory Integrative Approach for Children, 64(3), 403-414

Telerehabilitation and Electrical Stimulation: An Occupation-Based, Client-Centered Stroke Intervention, 64(1), 73-81

Use of Occupations and Activities in a Modified Constraint-Induced Movement Therapy Program: A Musician's Triumphs Over Chronic Hemiparesis From Stroke, 64(5), 735-744

Validity Evidence for the Child Occupational Self Assessment, 64(4), 621-632

Adaptation, Psychological

Description of Dementia Caregiver Uplifts and Implications for Occupational Therapy, 64(4), 590-595

Maternal Health After the Birth of a Medically Complex Infant: Setting the Context for Evaluation of Co-Occupational Performance, 64(4), 642-649

Reconstructing Meaning Through Occupation After the Death of a Family Member: Accommodation, Assimilation, and Continuing Bonds, 64(1), 133-141

Adolescent Medicine

Child and Youth Practice Area Publications in the *American Journal of Occupational Therapy* in 2008 and 2009: A Content Analysis, Methodology Overview, and Summary, 64(5), 814-819

Aged

From the Desk of the Guest Editor—Special Issue on Older Driver Safety and Community Mobility, 64(2), 211-214

Seniors' Perceptions of Vehicle Safety Risks and Needs, 64(2), 215-224

Traffic Violations Versus Driving Errors of Older Adults: Informing Clinical Practice, 64(2), 233-241

Validation of a Test of Road Law and Road Craft Knowledge With Older or Functionally Impaired Drivers, 64(2), 306-315

Validity and Critical Driving Errors of On-Road Assessment for Older Drivers, 64(2), 242-251

Aged, 80 and Over

Traffic Violations Versus Driving Errors of Older Adults: Informing Clinical Practice, 64(2), 233-241

Aging

Influence of Age and Bolus Size on Swallowing Function: Basic Data and Assessment Method for Care and Preventive Rehabilitation, 64(1), 88-94

Near-Vision Acuity Levels and Performance on Neuropsychological Assessments Used in Occupational Therapy, 64(1), 105-113

Alzheimer Disease

Drivers With Dementia and Outcomes of Becoming Lost While Driving, 64(2), 225-232

Amputation

Rehabilitation for Bilateral Amputation of Fingers, 64(6), 923-928

Anthropometry

Long-Handled Shoehorn Length, Body Mass Index, and Hip Range of Motion in Healthy Female Adults, 64(6), 915-922

AOTA Association and Official Documents

2010 AOTA/AOTF Awards and Recognitions Recipients, 64(S), S140

2010 Eleanor Clarke Slagle Lecture—What's Going on Here? Deconstructing the Interactive Encounter, 64(6), 855-868

2010 Representative Assembly Summary of Minutes, 64(S), S141-S144

90th Annual Business Meeting Minutes, 64(S), S145-S147

Association Policies, 64(S), S137-S139

- Driving and Community Mobility, 64(S), S111–S124
- Enforcement Procedures for the *Occupational Therapy Code of Ethics and Ethics Standards*, 64(S), S1–S13
- Farewell Presidential Address, 2010—A Soufflé Vision, 64(6), 841–847
- Guidelines for Re-Entry Into the Field of Occupational Therapy, 64(S), S25–S27
- Inaugural Presidential Address, 2010—High-Definition Occupational Therapy: HD OT, 64(6), 848–854
- List of Educational Programs in Occupational Therapy, 64(S), S148–S161
- Occupational Therapy Code of Ethics and Ethics Standards (2010), 64(S), S14–S24
- Occupational Therapy Services in the Promotion of Psychological and Social Aspects of Mental Health, 64(S), S79–S88
- Occupational Therapy's Perspective on the Use of Environments and Contexts to Support Health and Participation in Occupations, 64(S), S57–S69
- Official Documents, 64(S), S1–S136
- The Scope of Occupational Therapy Services for Individuals With an Autism Spectrum Disorder Across the Life Course, 64(S), S125–S136
- Scope of Practice, 64(S), S71–S78
- Specialized Knowledge and Skills in Mental Health Promotion, Prevention, and Intervention in Occupational Therapy Practice, 64(S), S29–S42
- Specialized Knowledge and Skills in Technology and Environmental Interventions for Occupational Therapy Practice, 64(S), S43–S48
- Standards for Continuing Competence, 64(S), S101–S103
- Standards of Practice for Occupational Therapy, 64(S), S105–S110
- Telerehabilitation, 64(S), S89–S100
- Apnea**
- Influence of Age and Bolus Size on Swallowing Function: Basic Data and Assessment Method for Care and Preventive Rehabilitation, 64(1), 88–94
- Arthritis**
- Documenting Progress: Hand Therapy Treatment Shift From Biomechanical to Occupational Adaptation, 64(1), 82–87
- Supporting Safe Driving With Arthritis: Developing a Driving Toolkit for Clinical Practice and Consumer Use, 64(2), 259–267
- Arthritis, Rheumatoid**
- Quality of Life in American Indian Women With Arthritis or Diabetes, 64(3), 496–505
- Arthrometry, Articular**
- Interrater and Intrarater Reliability of Finger Goniometric Measurements, 64(4), 555–561
- Attitude**
- Description of Dementia Caregiver Uplifts and Implications for Occupational Therapy, 64(4), 590–595
- Attitude of Health Personnel**
- Australian Occupational Therapy Driver Assessors' Opinions on Improving On-Road Driver Assessment Procedures, 64(2), 325–335
- Australia**
- Australian Occupational Therapy Driver Assessors' Opinions on Improving On-Road Driver Assessment Procedures, 64(2), 325–335
- Validation of a Test of Road Law and Road Craft Knowledge With Older or Functionally Impaired Drivers, 64(2), 306–315
- Autistic Disorder**
- Effectiveness of Therapy Ball Chairs on Classroom Participation in Children With Autism Spectrum Disorders, 64(6), 895–903
- Relationship Between Context and Sensory Processing in Children With Autism, 64(3), 474–483
- Relationships Between Stereotyped Movements and Sensory Processing Disorders in Children With and Without Developmental or Sensory Disorders, 64(3), 453–461
- Automobile Driver Examination**
- Australian Occupational Therapy Driver Assessors' Opinions on Improving On-Road Driver Assessment Procedures, 64(2), 325–335
- Evaluation of On-Road Driving in People With Hemianopia and Quadrantanopia, 64(2), 268–278
- Automobile Driving**
- Australian Occupational Therapy Driver Assessors' Opinions on Improving On-Road Driver Assessment Procedures, 64(2), 325–335
- Brief Report—Assessment of Driving Performance Using a Simulator Protocol: Validity and Reproducibility, 64(2), 336–340
- From the Desk of the Guest Editor—Special Issue on Older Driver Safety and Community Mobility, 64(2), 211–214
- Drivers With Dementia and Outcomes of Becoming Lost While Driving, 64(2), 225–232
- Driving Performance and Susceptibility to Simulator Sickness: Are They Related? 64(2), 288–295
- Establishing Criterion Validity of the Useful Field of View Assessment and Stroke Drivers' Screening Assessment: Comparison to the Result of On-Road Assessment, 64(1), 114–122
- Evaluation of On-Road Driving in People With Hemianopia and Quadrantanopia, 64(2), 268–278
- Impact of Partial Administration of the Cognitive Behavioral Driver's Inventory on Concurrent Validity for People With Brain Injury, 64(2), 279–287
- Item Development and Validity Testing for a Self- and Proxy Report: The Safe Driving Behavior Measure, 64(2), 296–305
- Occupational Therapists' Capacity-Building Needs Related to Older Driver Screening, Assessment, and Intervention: A Canada-wide Survey, 64(2), 316–324
- Seniors' Perceptions of Vehicle Safety Risks and Needs, 64(2), 215–224
- Supporting Safe Driving With Arthritis: Developing a Driving Toolkit for Clinical Practice and Consumer Use, 64(2), 259–267
- Test Acceptability and Confidence Levels in Older Adults Referred for Fitness-to-Drive Evaluations, 64(2), 252–258
- Traffic Violations Versus Driving Errors of Older Adults: Informing Clinical Practice, 64(2), 233–241
- Validation of a Test of Road Law and Road Craft Knowledge With Older or Functionally Impaired Drivers, 64(2), 306–315
- Validity and Critical Driving Errors of On-Road Assessment for Older Drivers, 64(2), 242–251
- Behavior**
- Expressive Behavior in Parkinson's Disease as a Function of Interview Context, 64(3), 484–495
- Behavior Control**
- Effectiveness of Therapy Ball Chairs on Classroom Participation in Children With Autism Spectrum Disorders, 64(6), 895–903
- Behavior Therapy**
- Effectiveness of Therapy Ball Chairs on Classroom Participation in Children With Autism Spectrum Disorders, 64(6), 895–903

Benchmarking

From the Desk of the Editor—Reporting Standards for Intervention Effectiveness Studies, 64(4), 523–527

Transporting Children in Wheelchairs in Passenger Vehicles: A Comparison of Best Practice to Observed and Reported Practice in a Pilot Sample, 64(5), 804–808

Bibliometrics

From the Desk of the Editor—Online Publication and the Impact Factor, 64(1), 7–8

Biomechanics

Grasping Naturally Versus Grasping With a Reacher in People Without Disability: Motor Control and Muscle Activation Differences, 64(1), 95–104

Body Mass Index

Long-Handled Shoehorn Length, Body Mass Index, and Hip Range of Motion in Healthy Female Adults, 64(6), 915–922

Braces

Combined Bracing, Electrical Stimulation, and Functional Practice for Chronic, Upper-Extremity Spasticity, 64(5), 720–726

Brain Injuries

Clinical Utility of the Combined Use of the Canadian Occupational Performance Measure and Goal Attainment Scaling, 64(6), 904–914

Cognitive Versus Functional Approaches to Rehabilitation After Traumatic Brain Injury: Commentary on a Randomized Controlled Trial, 64(1), 182–185

Effectiveness of Rehabilitation in Enhancing Community Integration After Acute Traumatic Brain Injury: A Systematic Review, 64(5), 709–719

Evaluation of On-Road Driving in People With Hemianopia and Quadrantanopia, 64(2), 268–278

Impact of Partial Administration of the Cognitive Behavioral Driver's Inventory on Concurrent Validity for People With Brain Injury, 64(2), 279–287

Pilot Study to Examine the Use of Self-Generation to Improve Learning and Memory in People With Traumatic Brain Injury, 64(4), 540–546

Breast Neoplasms

Randomized Controlled Trial of the Breast Cancer Recovery Program for Women With Breast Cancer-Related Lymphedema, 64(1), 59–72

Capacity Building

Occupational Therapists' Capacity-Building Needs Related to Older Driver Screening, Assessment, and Intervention: A Canada-Wide Survey, 64(2), 316–324

Caregivers

Description of Dementia Caregiver Uplifts and Implications for Occupational Therapy, 64(4), 590–595

Identifying Strategies Early Intervention Occupational Therapists Use to Teach Caregivers, 64(5), 776–785

Cerebral Palsy

Effect of Seated Position on Upper-Extremity Access to Augmentative Communication for Children With Cerebral Palsy: Preliminary Investigation, 64(4), 596–604

Manual Ability Classification System for Children With Cerebral Palsy in a School Setting and Its Relationship to Home Self-Care Activities, 64(4), 614–620

Child Behavior

Relationship Between Context and Sensory Processing in Children With Autism, 64(3), 474–483

Classification

Evidence Review to Investigate the Support for Subtypes of Children With Difficulty Processing and Integrating Sensory Information, 64(3), 391–402

Cognition

Environmental Effects in the Performance of Daily Tasks in Healthy Adults, 64(6), 935–940

Impact of Partial Administration of the Cognitive Behavioral Driver's Inventory on Concurrent Validity for People With Brain Injury, 64(2), 279–287

Near-Vision Acuity Levels and Performance on Neuropsychological Assessments Used in Occupational Therapy, 64(1), 105–113

Cognition Disorders

Cognitive, Visual, Auditory, and Emotional Factors That Affect Participation in Older Adults, 64(4), 570–579

Driving Performance and Susceptibility to Simulator Sickness: Are They Related? 64(2), 288–295

Use of the Occupational Therapy Task-Oriented Approach to Optimize the Motor Performance of a Client With Cognitive Limitations, 64(5), 727–734

Cognitive Therapy

Cognitive Versus Functional Approaches to Rehabilitation After Traumatic Brain

Injury: Commentary on a Randomized Controlled Trial, 64(1), 182–185

Combined Modality Therapy

Combined Bracing, Electrical Stimulation, and Functional Practice for Chronic, Upper-Extremity Spasticity, 64(5), 720–726

Communication Aids for Disabled

Effect of Seated Position on Upper-Extremity Access to Augmentative Communication for Children With Cerebral Palsy: Preliminary Investigation, 64(4), 596–604

Computer Simulation

Brief Report—Assessment of Driving Performance Using a Simulator Protocol: Validity and Reproducibility, 64(2), 336–340

Driving Performance and Susceptibility to Simulator Sickness: Are They Related? 64(2), 288–295

Computers

Relationship Between Handwriting and Keyboarding Performance Among Fast and Slow Adult Keyboarders, 64(1), 123–132

Cross-Regional Comparison

Cross-Regional Validation of the School Version of the Assessment of Motor and Process Skills, 64(5), 768–775

Deglutition

Influence of Age and Bolus Size on Swallowing Function: Basic Data and Assessment Method for Care and Preventive Rehabilitation, 64(1), 88–94

Dementia

Description of Dementia Caregiver Uplifts and Implications for Occupational Therapy, 64(4), 590–595

Drivers With Dementia and Outcomes of Becoming Lost While Driving, 64(2), 225–232

Depression

Cognitive, Visual, Auditory, and Emotional Factors That Affect Participation in Older Adults, 64(4), 570–579

Consistency and Construct Validity of the Activity Card Sort (Modified) in Measuring Activity Resumption After Stem Cell Transplantation, 64(4), 562–569

Developmental Disabilities

Relationships Between Stereotyped Movements and Sensory Processing Disorders in Children With and Without Developmental or Sensory Disorders, 64(3), 453–461

- Diabetes Mellitus**
Quality of Life in American Indian Women With Arthritis or Diabetes, 64(3), 496–505
- Differential Item Functioning**
Cross-Regional Validation of the School Version of the Assessment of Motor and Process Skills, 64(5), 768–775
- Differential Test Functioning**
Cross-Regional Validation of the School Version of the Assessment of Motor and Process Skills, 64(5), 768–775
- Diffusion of Innovation**
The Issue Is—Facilitating Evidence-Based Practice: Process, Strategies, and Resources, 64(1), 164–171
- Disabled Children**
Transporting Children in Wheelchairs in Passenger Vehicles: A Comparison of Best Practice to Observed and Reported Practice in a Pilot Sample, 64(5), 804–808
Validity Evidence for the Child Occupational Self Assessment, 64(4), 621–632
- Ecosystem**
Development and Standardization of a "Do-Eat" Activity of Daily Living Performance Test for Children, 64(1), 47–58
- Education**
Reliability and Validity of the Evaluation Tool of Children's Handwriting—Cursive (ETCH-C) Using the General Scoring Criteria, 64(1), 37–46
- Education, Continuing**
Development and Evaluation of the University of Michigan's Practice-Oriented Research Training (PORT) Program, 64(5), 796–803
- Occupational Therapists' Capacity-Building Needs Related to Older Driver Screening, Assessment, and Intervention: A Canada-wide Survey, 64(2), 316–324
- Education, Special**
Effect of Assistive Technology in a Public School Setting, 64(1), 18–29
- Educational Measurement**
Effect of Assistive Technology in a Public School Setting, 64(1), 18–29
Reliability and Validity of the Evaluation Tool of Children's Handwriting—Cursive (ETCH-C) Using the General Scoring Criteria, 64(1), 37–46
- Electric Stimulation**
Combined Bracing, Electrical Stimulation, and Functional Practice for Chronic, Upper-Extremity Spasticity, 64(5), 720–726
Telerehabilitation and Electrical Stimulation: An Occupation-Based, Client-Centered Stroke Intervention, 64(1), 73–81
- Electromyography**
Grasping Naturally Versus Grasping With a Reacher in People Without Disability: Motor Control and Muscle Activation Differences, 64(1), 95–104
- Environment**
Development of a Community Mobility Skills Course for People Who Use Mobility Devices, 64(4), 547–554
Environmental Effects in the Performance of Daily Tasks in Healthy Adults, 64(6), 935–940
Expressive Behavior in Parkinson's Disease as a Function of Interview Context, 64(3), 484–495
In-Home Occupational Performance Evaluation (I-HOPE), 64(4), 580–589
Relationship Between Context and Sensory Processing in Children With Autism, 64(3), 474–483
- Evaluation Studies as Topic**
From the Desk of the Editor—Reporting Standards for Intervention Effectiveness Studies, 64(4), 523–527
- Evidence-Based Practice**
Centennial Vision—Mental Health Evidence in the *American Journal of Occupational Therapy*, 64(4), 660–669
Centennial Vision—Rehabilitation Research Focused on Neurorehabilitation, 64(2), 341–356
From the Desk of the Editor—State of the Journal, 2010, 64(6), 832–840
Examining the Neuroscience Evidence for Sensory-Driven Neuroplasticity: Implications for Sensory-Based Occupational Therapy for Children and Adolescents, 64(3), 375–390
- Executive Function**
Pilot Study to Examine the Use of Self-Generation to Improve Learning and Memory in People With Traumatic Brain Injury, 64(4), 540–546
- Exercise**
Randomized Controlled Trial of the Breast Cancer Recovery Program for Women With Breast Cancer-Related Lymphedema, 64(1), 59–72
- Exercise Therapy**
Documenting Progress: Hand Therapy Treatment Shift From Biomechanical to Occupational Adaptation, 64(1), 82–87
- Eye Movements**
Relationship Between Handwriting and Keyboarding Performance Among Fast and Slow Adult Keyboarders, 64(1), 123–132
- Family Relations**
Doing, Being, and Becoming: A Family's Journey Through Perinatal Loss, 64(1), 142–151
- Fatigue**
Effects of a Tailored Activity Pacing Intervention on Pain and Fatigue for Adults With Osteoarthritis, 64(6), 869–876
- Feedback, Sensory**
Examining the Neuroscience Evidence for Sensory-Driven Neuroplasticity: Implications for Sensory-Based Occupational Therapy for Children and Adolescents, 64(3), 375–390
Impairment of Stance Control in Children With Sensory Modulation Disorder, 64(3), 443–452
- Feeding Behavior**
Effectiveness of Cheek and Jaw Support to Improve Feeding Performance of Preterm Infants, 64(6), 886–894
- Feeding Methods**
Effectiveness of Cheek and Jaw Support to Improve Feeding Performance of Preterm Infants, 64(6), 886–894
- Finger Injuries**
Comparing Three Postoperative Treatment Protocols for Extensor Tendon Repair in Zones V and VI of the Hand, 64(5), 682–688
- Finger Joint**
Interrater and Intrarater Reliability of Finger Goniometric Measurements, 64(4), 555–561
- Fingers**
Rehabilitation for Bilateral Amputation of Fingers, 64(6), 923–928
- Forearm**
New Assessment of Forearm Strength: Reliability and Validity, 64(5), 809–813

- Functional Laterality**
Arm-Hand Use in Healthy Older Adults, 64(6), 877–885
- Geriatric Assessment**
- Item Development and Validity Testing for a Self- and Proxy Report: The Safe Driving Behavior Measure, 64(2), 296–305
 - Occupational Therapists' Capacity-Building Needs Related to Older Driver Screening, Assessment, and Intervention: A Canada-wide Survey, 64(2), 316–324
 - Test Acceptability and Confidence Levels in Older Adults Referred for Fitness-to-Drive Evaluations, 64(2), 252–258
 - Validation of a Test of Road Law and Road Craft Knowledge With Older or Functionally Impaired Drivers, 64(2), 306–315
 - Validity and Critical Driving Errors of On-Road Assessment for Older Drivers, 64(2), 242–251
- Geriatrics**
Geriatric Research, 64(1), 172–181

Social Environment

Evaluation of Social Interaction During Occupational Engagement, 64(1), 10–17

Spinal Cord Injuries

Children's and Parents' Perspectives About Activity Performance and Participation After Spinal Cord Injury: Initial Development of a Patient-Reported Outcome Measure, 64(4), 605–613

Stem Cell Transplantation

Consistency and Construct Validity of the Activity Card Sort (Modified) in Measuring Activity Resumption After Stem Cell Transplantation, 64(4), 562–569

Stereotypic Movement Disorder

Relationships Between Stereotyped Movements and Sensory Processing Disorders in Children With and Without Developmental or Sensory Disorders, 64(3), 453–461

Stress Disorders, Post-Traumatic

Maternal Health After the Birth of a Medically Complex Infant: Setting the Context for Evaluation of Co-Occupational Performance, 64(4), 642–649

Stroke

Chronometry of Mentally Versus Physically Practiced Tasks in People With Stroke, 64(6), 929–934

Comparison of Constraint-Induced Movement Therapy and Bilateral Treatment of Equal Intensity in People With Chronic Upper-Extremity Dysfunction After Cerebrovascular Accident, 64(4), 528–539

Establishing Criterion Validity of the Useful Field of View Assessment and Stroke Drivers' Screening Assessment: Comparison to the Result of On-Road Assessment, 64(1), 114–122

Impact of Partial Administration of the Cognitive Behavioral Driver's Inventory on Concurrent Validity for People With Brain Injury, 64(2), 279–287

Telerehabilitation and Electrical Stimulation: An Occupation-Based, Client-Centered Stroke Intervention, 64(1), 73–81

Use of Mental Practice to Improve Upper-Limb Recovery After Stroke: A Systematic Review, 64(5), 695–708

Use of Occupations and Activities in a Modified Constraint-Induced Movement Therapy Program: A Musician's Triumphs Over Chronic Hemiparesis From Stroke, 64(5), 735–744

Use of the Occupational Therapy Task-Oriented Approach to Optimize the Motor Performance of a Client With Cognitive Limitations, 64(5), 727–734
